# Cracking the GR-Code

“Imagination is everything. It is the preview of life’s coming attractions.” *Albert Einstein*

Transmission	Silent	?	?	?	?	?
Reception	Active Listening	?	?	?	?	?

*Cracking the GR-Code* is a call to imagine the impossible...

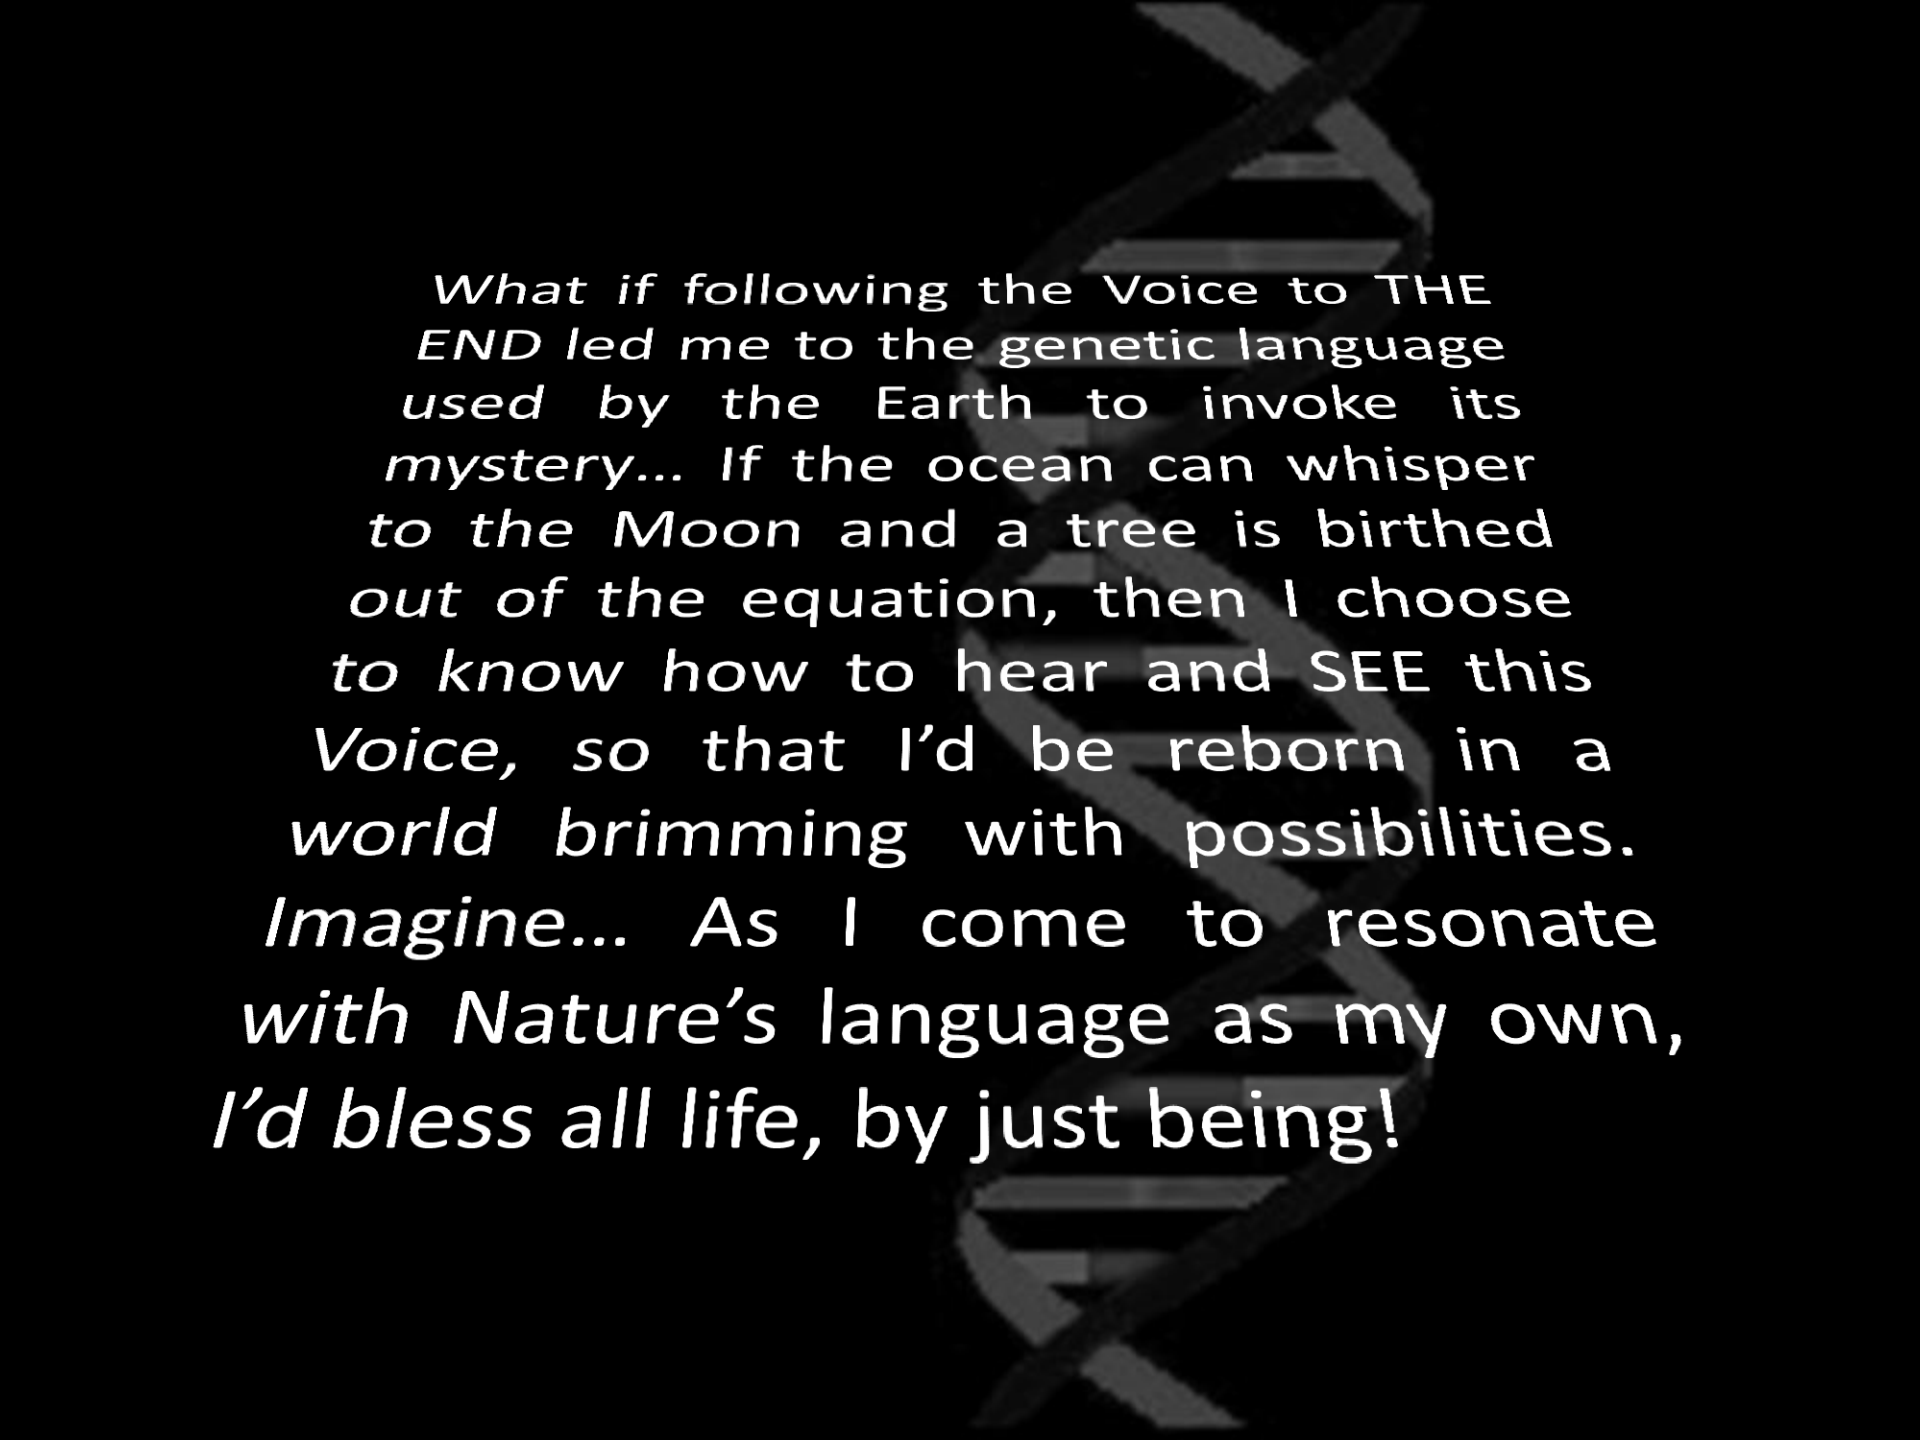

It invites me to feel a transmission Given from such depth of Silence that it is Received as the Active Listening of compassion...

Imagine the quality of listening that compassion would afford me while with “you;” my father, my friend, my cat, my body, Mother Earth... Imagine the kindness of not having to impose my “shoulds” on you, IT or me...

If I were to understand *in my blood* that there is only One of us, I would

- Get out of my way, and follow the Voice to the END of the “World.”
- Stop doubting that I could be successful, and succeed in my creation.
- Find my Voice, and open to be heard and seen!

**Compassion:** the Power to embrace my pain so completely that I do what it takes to heal a situation.

*What if following the Voice to THE  
END led me to the genetic language  
used by the Earth to invoke its  
mystery... If the ocean can whisper  
to the Moon and a tree is birthed  
out of the equation, then I choose  
to know how to hear and SEE this  
Voice, so that I'd be reborn in a  
world brimming with possibilities.  
Imagine... As I come to resonate  
with Nature's language as my own,  
I'd bless all life, by just being!*

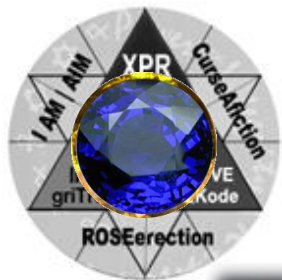

# In this Episode...

- **WHY the Voice Paradox?** **BECAUSE** “God” speaks to me in paradox, for me to get out of my own way, and live in a paradise found!
- **WHY am I “Not Enough?”** **BECAUSE** having turned off my intuition keeps me from reading my own sacred contract, which promises freedom of expression.
- **WHY 10 Digits?** **BECAUSE** understanding them as my fingers opens the way to no longer engage in the repetitive sabotage of my own success.
- Okay, but **WHY Art?** **BECAUSE** the beauty, the generosity and the purpose of Art is to reopen sentience, the capacity of feeling and sensing.
- Great, so **WHY QKabbalah?** **BECAUSE**, with the meaning of “receiving” and the sense of emptying, it helps me make room for me to see clearly where to walk and how to talk, a most noble and practical achievement.
- **WHY the path of *Golden XPR*?** **BECAUSE** it quenches my thirst for awe by stretching me to something greater than myself. The coincidences are too numerous and surreal to not have me drop to my knees, in gratitude!

# WHY the Voice Paradox?

Crown

3<sup>rd</sup> Eye

Throat

Heart

Navel

Sex

Root

BECAUSE “God” speaks to me in paradox. Its voice calls me to play the LOVE game, by embracing opposite perspectives...

Illustration: the Hindu Tree of Life in awe of its biblical counterpart.

Perspective	I	IT/ITS	We: You & Me
“God” Paradox	Independence	Interdependence	Codependency

This is confusing to me: if we are ALL interdependently connected, WHY do I get lonely? If separation is an illusion, then WHY do I keep on judging me, you, or IT, when the IT of reality transcends fiction to say: “resistance is futile. You will be assimilated!” Who is this you? When you ask if I see you for who you really are... Sure, I do! You’re someone I need to change! So WHY do I resist when being given the opposite of what I want! Possibly BECAUSE my 3<sup>rd</sup> “I” was yet to open to seeing and understanding my resistance...

# WHY Adam's Apple?

BECAUSE, no matter my gender, I have something stuck in my throat chakra; the belief that I don't have what it takes to remove the obstacles to my Freedom of Expression.

"If you bring forth what is within you, what you bring forth will save you. If you do not bring forth what is within you, what you do not bring forth will destroy you." *Gospel of Thomas*

I resist and don't listen, because, when asking for my purpose to be revealed, I often dismiss it as absurd. And yet, if my guidance is not utterly preposterous, scary as hell, and absolutely outrageous, if it does not require complete trust on my part, IT doesn't come from my heart! Moreover, it will *never* lead me to speak from such a core of integrity that I am heard! It is only when I **ROGER** that, and "**R**eceived **O**der **G**iven" that I can "**E**xpect **R**esults;" the more shocking the guidance, the better the results! While it will shatter the cozy cocoon of my deep dark secrets, it will also strengthen my faith in an invisible force that provides for me, no matter what!

Accountability and creativity are thus the two sides of the same "God" and gold coin: I can expect clear results when I am response-able for what I will to create and what I won't. Thus becoming conscious of WHY I say and do what I say and do matters. IT is what forms, informs and transforms matter. IT is the proverbial Word made flesh.

# WHY “not Enough?”

BECAUSE, now that I’ve turned off my intuition, I can’t hear nor read the signs, and soon lose the sense of my Sacred Contract.

Bottom: Hebrew word *Brit* for “Covenant.” Dropping the top word (*Esh* for “fire”) right in the middle of *Brit* forms *Barashit* for “Created SIX,” as the SIX cells of the colored lines.

Obstacle	Distortion	?	?	?	?	?
Empowerment	Clearness	?	?	?	?	?

Where do I find the capacity to make sense of my own intuition? How can I have the knowledge of my destiny, and trust that I am not an accident, but rather here to fulfill a sacred purpose? The perennial truths of ancient languages speak of the written prenuptial agreement, a covenant that my Soul has with the divine. This contract is sacred. It was inscribed in the ether of Akashic records *before the beginning of time*. I just need to break the seals to be successful in creating.

# WHY Disconnecting?

BECAUSE I have a secret or two to protect: this is how I would say I want to emPower the Now, yet keep on creating unconscious time...

I think I'm safe; that people can't read my mind, and again, I am fooling myself! Humans are empaths: they can feel me and sense me, *whether I or they choose to know it or not!*

I am now a sentient being without sentience – the capacity for feeling and sensing. I turn it off, especially when life gets intense! However, when I don't feel me, I also don't understand me, which makes it impossible for me to hear you, or to be heard by you. Inauthentic **Communication**, internal and external, seems to be at the root of my dis-ease. Yet, what if...

I'd **SEE** the uncanny life of symbols ↔ I'd **HEAR** and **UnderStand**: there's only One of **US** ↔ I'd be **Enough!**  
Okay, so **WHY** can't I do that: what am I missing?

# WHY Unsuccessful?

BECAUSE, while I know what my orders are, I just think I know better! This revolt is what prevents my actions from being crowned with success.

The word “digit” comes from Latin *digitus* for “finger.” When my right hand doesn’t know what my left hand is doing, I can’t count on my being heard and seen.

Left Hand	E5: Thumb	D4: Index	C3: Middle Finger	B2: Ring Finger	A1: Pinky
Right Hand	W6: Thumb	G7: Index	H9: Middle Finger	Th9: Ring Finger	Y0: Pinky

“For if that which you seek, you find not from *within*, you’ll never find it *without*. For behold, I have been with you from the beginning, and I am That which is attained at the end of **desire**.” *Charge of the Goddess*

If freedom of expression is my true desire, I must touch the core of “God’s” paradox, and join my dominant hand with the hand of my unconscious, that is, the two sides of my brain. As I feel the sense of “as within, so without,” I also witness that what I say I want and what I *actually* have are in perfect alignment...

# The Thumb of Desire

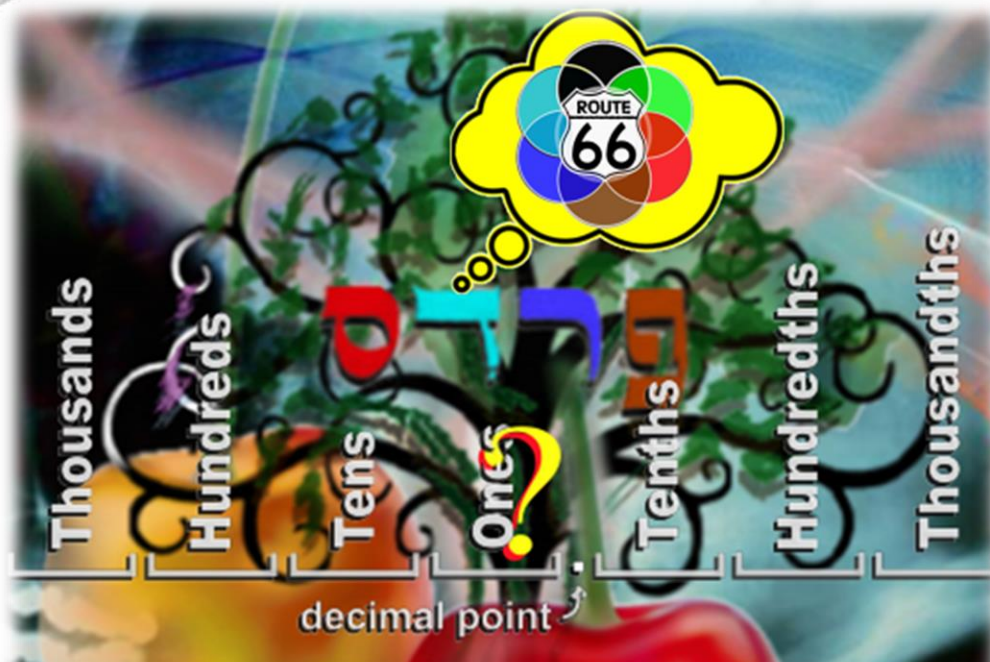

Same 10 fingers, yet this time, my two hands are joined at the thumbs, the instruments of will. This union ends all schizophrenia. I still know what to do. It is just that now, I am **desiring** to do it!

I remember projecting a light on my hands to form the shadow of an eagle... Since ancient times, Eagle has taught “me” to connect to my heart, and see that which is invisible to the eyes. Its feathers are a most sacred healing tool, as Eagle “flies closest to the Sun,” illuminating a Truth that will set me free. This same eagle, who inspires me to reach for the sky, grounds my action by suggesting a master code: its head and wings are the digits of my left hand and of my right hand united in **G**iving/**R**eceiving. When the palms are facing me, the fingers of my left hand are to the right, and of my right hand, to the left. Should I refuse to see the **PAIRfection** of what is **G**iven and **R**eceived, it can only be because **I want** to fly solo, apart from Spirit’s guidance. My right hand no longer knows what my left hand is doing, as my black thumb (digit #6) just chose to detach out of **Desiring** to pursue its own private goals.

# WHY Art?

BECAUSE the reopening of sentence – the capacity to feel and sense – is the purpose, the beauty and the generosity of Art.

9	8	7	6	5	4	3	2	1
Completing	Ordering	Engaging	Desiring	PAIRfect	Resisting	Changing	Deciding	Opening

The GR-Code's Art is language itself. Witnessing the life of its medium transforms me from feeling like I don't belong to connecting to the sense of my words, and embodying Wisdom. Funny thing that I'd count time using a SIX-based system (60 sec., 60 min., 24 hrs.), and money using a decimal system (\$1, \$10, \$1,000,000.00)! Once sentient in these two codes, I am a child at "heART," open to Give and Receive by way of GRace, no longer GReed. How can I be that child, beyond mind, time and money?

# WHY the *QKabbalah*?

BECAUSE this Hebrew word, which has the meaning of “receiving” and the sense of emptying, speaks of unlearning an indoctrination that tells me that giving trumps receiving, or that money doesn’t grow on trees.

Once upon a Zen time, a philosophy professor went to a Master to ask about God. The professor talked and talked, until the Master said: “Let me first serve you tea.” The professor was at a loss: how could all his questions be answered by drinking tea? The Master brought the kettle, poured tea in the cup, and kept on pouring. “Stop!” said the professor. “What are you doing? Do you not see that the cup is full?” The Master said, “That’s exactly how your mind is: so full of questions that there is no space for an answer to come in. **Go back, empty your cup, and even break it: when you are no longer, there is no one to stop you from “receiving” the LOVE that you are!**

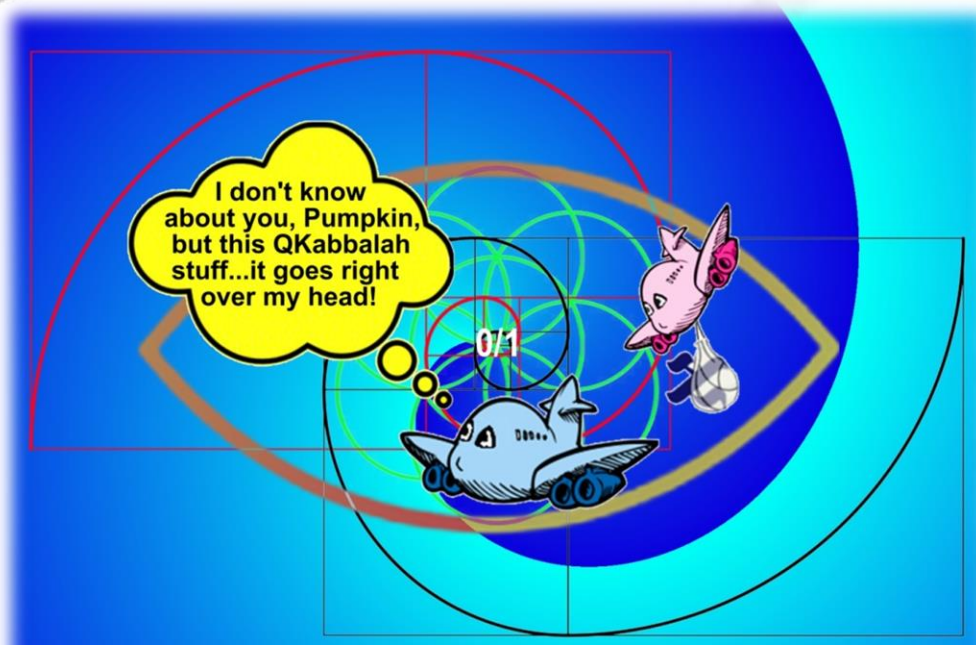

If I am to empty out, why all the **WHYS** questions? BECAUSE I hear *WISE* in my **WHYS**: it is a way to feel the energy of the judgments which conceal the beginner’s mind – a mind open to “receive.”

# WHY a Global “SOULution?”

BECAUSE, now that Hebrew went global as Sacred Geometry, the *QKabbalah* (for “receiving”) is no longer Greek to me.

A Nature’s alphabet: **1 dot**: I open; **2 dots**: I decide (by drawing the line); **3 dots**: I change (by triangulating)...

א	ב	ג	ד	ה	ו	ז	ח	ט
3 Changing	2 Deciding	1 Opening						

This project, *Golden XPR*, starts in the hypothesis that a meta-language – a language beyond all languages – existed before the beginning of mind. Like mathematics or music, it is comprehensive, having a geometrical shape and an algebraic numeral. Its numbers being also letters, I can make the numbers speak! This art is the *QKabbalah*, revealed as the Soul of the Way. It leads me to THE END of the BS, when I am accountable to a truth that is measurable, e.g.; writing the pages, making the money... But, **WHY would it be real only now?**

# WHY Fulfilled Now?

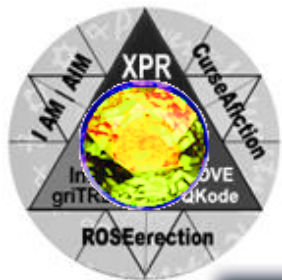

Imagine there's no countries; it isn't hard to do  
Nothing to kill or die for; And no religion too...

*Lyrics; Imagine, John Winston Lennon*

I just need to look around... The extent of the global problem is now urging us, individually and collectively, to step into an authentic form of leadership, and be the change. The necessity to see the creation of One Language; One Speech (and “no religion too”) has become burning enough to mother its invention. Throughout history, many endeavored to fulfill this need, each time being dismissed as idealists. WHY now? Simple! The need is so bad it turned to an inflamed itch! I itch to end the confusion that I am in, as I seem to be my worst enemy, waging my own war, in the Name of my own religion, and fighting “you” for the pettiest causes, just to be right! **If I could only hear and see that we are One, the noise would quiet down. I would complete my quest, as I'd have no need for hunger or greed. I would just live for today!**

First the outrageous call to bring forth *Golden XPR* as a meta-language, then conclusions so shocking they can only be true: these dudes, who worked unremittingly in their garage for a lifetime; they must be onto something!

# WHY Colors SEXY?

BECAUSE they work in pairs, like everything else, female and **Blue** as **Water** to male and **Red** as **Fire**, male **Air** to female **Earth**, for me to open to **LOVE**...

Hebrew word *Theomim* for the Gemini's "twins." *Theomim* is the etymology of name "Thomas."

9	8	7	6	5	4	3	2	1
Male Fire	?	Female Earth	?	PAIRfect	?	Male Air	?	Female Water

The collective has inverted polarities to the point where little boys are meant to wear blue, although **water** is receptive and female-like, and little girls, pink, although **fire** is giving and male-like... The *QKabbalah*, which makes sense of "Queen colors" and "King colors," may just assist ending the battle of sexes in a "World" in dire need for the Sacred Feminine, whether I am in man's or a woman's body!

# WHY the QK?

BECAUSE sentience – the capacity of sensing and feeling – is a way to reconcile two Teachings based on Hebrew scriptures; the Rabbinical Kabbalah and the Hermetic Qabalah, as the male and female sides of me, namely King and Queen.

An IQK test: am I a sentient being without sentience?

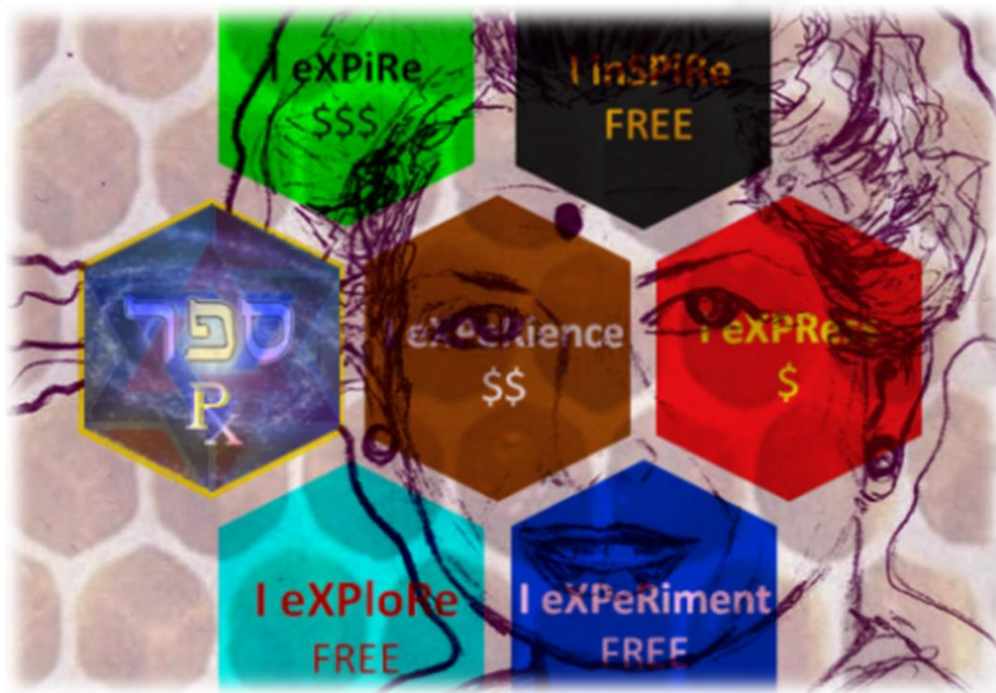

1. **I Am the Voice:** communication is not what I say and do, but the *result* of what I say and do. *Is there an alignment between what I say I want, and what I have?*
2. **I have a mind:** sentience bridges the gap my *thinking* has created between matter and spirit: *WHY fighting the “PAIRfect” balance of what is: why can’t I forgive?*
3. **I have a soul:** I feel that I Am source, when I hear/see that what I receive is exactly what I asked for. *Do I find that “I can’t get NO satisfaction,” though I try and I try?*
4. **I have a body:** the mystery of incarnation is just that; to be the Living Word, *the Word made flesh*. *Do I only know the meaning of “we are one,” but not its sense?*
5. **I have a heart:** whether conscious of it or not, I choose what I observe. *Granted that chaos is intrinsic to life, do I have the Power to choose Peace at all times?*
6. **I Am Spirit:** when doing the same harmful thing over and over, there is something I haven’t understood. *Am I willing to accept that the subjective experience of Self-knowledge can be explained in such way that it can be learned (felt and sensed)?*

Knowledge	Voice	Mind	Soul	Body	Heart	Spirit

# WHY Golden XPR?

BECAUSE it quenches my thirst for awe by stretching me to something greater than myself. The coincidences are too surreal and too numerous to not have me drop to my knees in front of the Sacred!

This is the holy moment when wisdom begins: feeling the **Gold** of “do no harm,” I stop resisting my own **Goodness**.

Golden XPR	1	2	3	4	5	6
XPR Transforming	InSPiRing	eXPloRing	eXPeRimenting	eXPeRiencing	eXPReSSing	eXPiRing

I am you, an ancient soul who came back from the future to “digest” a specific area of greed, and play my part in healing the Earth. Greed is more than a rapacious desire for wealth. It is a will directed to Power; to controlling me, us, it; the world! It is the voice saying: “I can stop anytime,” and doesn’t hear its own screech. It is the anxiety that won’t quit, as it fears “\$care City!” It is also and foremost the obsessive thought of revenge that will lead me to forgive. GReed will then **Transform** into GRace; my heart, open to LOVE, and my mind, to the sense of Enough.

**To be continued...**

that I have a dream...

## – Deciding to Remember

- **WHY the Dream that dreams ALL dreams?** BECAUSE today may be the day when I stop *hoping* for a world free of GREed, and start *trusting* it can be so!
- Yes, but **WHY the GR-Code?** BECAUSE, since everything can be represented by numbers, I just need a numerical alphabet to understand mental patterns.
- Great, so **WHY Time and Money?** BECAUSE I get stuck in what's in it for me, a concern that alters the purity of my communication, and kills my relating.
- Okay, but **WHY the “two kinds of people” Belief System?** BECAUSE any sincere desire for change starts in an honest admission of where I am divided.
- **WHY not the Truth?** BECAUSE I think that the whole Truth (from start, to middle, to finish), however noble it may be, is a whole lot of work!
- **WHY Absolute?** BECAUSE I require a form of inquiry radical enough for me to trust that there is an END to my hidden agendas, as these little buggers are like the silk scarves that a clown pulls out of his pocket: it goes on and on...

Consider: surrendering my judgments is how I can **BE** the deliberate **CAUSE** of goodness for ALL.

# GR's Coming Attractions

1. **Opening** to sensing the Voice Paradox, to seeing anew my 10 fingers as 10 digits, and to a “receiving” of my soul that may well quench my thirst for awe.
2. **Deciding** to remember that I have a dream, and that fulfilling it is not only an option, it is WHY I came to Earth to begin with. I am a communicator, here to sing my song!
3. **Changing** via Sentience, and reopening the capacity of feeling and sensing from resonating with the ancient and futuristic Ways of sound as the matrix of creation.
4. **Resisting** numbers as sentient animals, and having password issues with 2 numerical systems (decimal and six-based) ruling over 2 GReed inducers: time & money.
5. **PAIRfecting** as East meets West, and relating to symbolic languages as waves, energy and patterns that settle the battle in consciousness of “he said/she said.”
6. **Desiring** to see a subtle way that would help me to free the feminine from her exile, whether I am a man or a woman, and thus to hold the tension between opposites.
7. **Engaging** with the GRace of balanced Giving/Receiving, and seeing a way to manage my energetic circuitry out of having my numbers lined up in “PAIRfect” symmetry.
8. **Ordering** my affairs, so that I would get out of my way, follow the Voice to where I am the Voice, become successful in my creation, and open to being heard and seen.
9. **Completing** in the realness of transcending GReed, and emPowering the Now.
